

International Pillow Fight Day

FAMILY PILLOW CHALLENGE

How to play

Divide the family into two teams and designate a “home base” for each team.

Each team builds a pillow fort around their home base using pillows, blankets, and other soft items.

Each team selects a “treasure” and places it inside their pillow fort.

Players try to sneak into the other team’s fort to find and grab their treasure and bring it back to their own fort.

Players can tap each other with their pillows to prevent them from reaching their treasure.

If a player is tapped by an opposing team member while inside their fort, they must return to their own fort before re-entering the game.

The game ends when one team successfully finds and brings back the other team’s treasure to their own fort.
